

PRIYANSHU SINGH

Data Analyst | AI Automation/Agent Developer | AI/ML Engineer

9137609145 | ps5704760@gmail.com | [LinkedIn](#) | [Github](#) | Kalyan East, Thane, Maharashtra 421306

PROFESSIONAL SUMMARY

Results-driven Data Science graduate with strong interest in Artificial Intelligence, Machine Learning, Python development, and workflow automation. Hands-on experience building AI-powered applications, intelligent agents, and automation workflows using Python, n8n, and modern AI technologies. Passionate about solving real-world problems through scalable software solutions, continuous learning, and practical project development. Quick learner with strong analytical thinking and a collaborative mindset.

EXPERIENCE

Data Analytics Mini Internship (TATA).

Data visualization Micro Internship (FORAGE).

AI & Automation Project Developer | Self Project

- Designed and developed AI-based applications using Python and modern AI frameworks.
- Built intelligent automation workflows using n8n for document processing, resume screening, and business automation.
- Developed AI assistant projects focused on workflow orchestration, modular architecture, and local execution.
- Worked with APIs, JSON, Git/GitHub, and Python scripting for integrating multiple services.
- Followed clean coding practices, debugging techniques, and version control throughout project development.

TECHNICAL SKILLS & TOOLS

Programming Languages: Python, SQL (Basic), Java (Basic)

AI & Machine Learning: Machine Learning Fundamentals, Prompt Engineering, AI Agents, LLM Concepts

Automation: n8n, Workflow Automation, API Integration, REST APIs

Data Analysis: Pandas, NumPy, Excel, Data Visualization (Tableau / Power BI Basics)

Development Tools: VS Code, Git, GitHub, Jupyter Notebook

Operating Systems: Windows, Linux (Basic)

Concepts: Object-Oriented Programming, Data Structures, Problem Solving, Version Control

CERTIFICATIONS

- Data Analytics - TATA
- Data Visualization - Forage

ACHIEVEMENTS & DISCLOSURES

- Built multiple AI and automation projects demonstrating practical implementation of Python and modern AI technologies.
- Developed intelligent workflow automation solutions using n8n for real-world business use cases.
- Designed AI assistant architecture focused on modularity, scalability, and local execution.
- Continuously exploring Artificial Intelligence, Machine Learning, Data Analytics, and Automation through hands-on projects.
- Active learner committed to improving software engineering, AI development, and automation skills through continuous practice.

EDUCATION

Bachelor of Science (Data Science) | [Mumbai University](#)
CGPA: 7.2

2024 - 2027
